The mission of PTP is to decrease the number of children who are injured or killed due to accidental injuries. These accidents can be prevented by providing resources and proper training. Money fundraised for PTP goes towards proper training for doctors, nurses, first responders, and necessary equipment.

Mission

The mission of the Pediatric Trauma Program (PTP) is to develop local projects that will reduce the number of children killed or injured by trauma, helping all children live happy, healthy, and safe lives.
