

Support vs. Cyber Bullying

What is Support?

- ❖ Support is another way to give assistance to someone, either emotionally or physically.
- ❖ Supporting someone includes helping him or her bear the weight that they might be carrying while performing a task or job.
 - *This is important because in Key Club, inclusiveness is one of the four core values, meaning no one gets left behind.*
- ❖ **Support lifts and helps people.**

What is Cyber Bullying?

- ❖ Cyber Bullying involved the use of communication through technology to support repeated and hostile behavior by an individual or group that is intended to harm others.
 - Cyber Bullying is most often done through social media.
- ❖ Those who are bullied are more likely to struggle with more personal issues in their lifetime.
- ❖ **Cyber bullying is always pulling others down and hurting them.**

What are the effects of Cyber Bullying?

cyber bullying has many harmful effects, including (but not limited to):

- ❖ Psychological stress, emotional stress, and physical stress.
- ❖ Increased feelings of sadness and loneliness.
- ❖ Changes in sleeping habits and eating habits.
- ❖ The loss of interest in current activities.
- ❖ General health complaints.

HOW TO PREVENT CYBER BULLYING

1. EDUCATE YOURSELF

- Understand exactly what cyber bullying is and know how to identify it.

2. PAUSE BEFORE YOU POST

- Don't post anything that may pose a threat to your reputation. People WILL judge you based on how you appear online.
 - ◆ Controversial posts may cause disagreements and fights online

3. SET UP PRIVACY CONTROLS

- Restrict access to people who are not your trusted friends and only accept people who you know personally in real life.

4. DO NOT BE A CYBER BULLY

- Treat others how you would like to be treated.
- Do not reinforce the idea of cyber bullying by being one yourself.
